PROFESSIONAL SUMMARY

IT Support Engineer and Field Network Engineer with over 10 years of hands-on experience providing onsite technical support, IT infrastructure maintenance, hardware and software troubleshooting, enterprise networking, and communication systems across mining, oil & gas, industrial, and enterprise environments.

Experienced in installing, configuring, maintaining, and troubleshooting desktops, laptops, Windows operating systems, printers, network devices, Microsoft 365, Fiber Optic, CCTV, LAN/WAN, and communication infrastructure. Strong background in end-user support, technical documentation, preventive maintenance, and coordinating with IT teams to ensure reliable and efficient IT operations.

CORE COMPETENCIES

IT Support & End User Services

Desktop & Laptop Support • Windows 10/11 • Microsoft 365 • Hardware Troubleshooting • Software Installation • Printer & Peripheral Support • IT Asset Management • End User Support • Remote Assistance

Network Infrastructure

LAN/WAN • TCP/IP • Routing & Switching • VLAN • Cisco IOS • MikroTik • Ubiquiti • Access Point • Network Troubleshooting • Structured Cabling

Hardware & Communication Systems

Computer Hardware • Fiber Optic • VSAT • Radio Link • Point-to-Point (PTP) Microwave • CCTV • Enterprise Network • Communication Equipment

System Installation & Maintenance

Installation • Configuration • Commissioning • Preventive Maintenance • Corrective Maintenance • System Testing • Technical Troubleshooting

Documentation & Reporting

Technical Documentation • Maintenance Reports • Incident Reports • Asset Documentation • Project Documentation • Commissioning Reports • Site Acceptance • Photo Documentation

Collaboration & Professional Skills

Problem Solving • Analytical Thinking • Attention to Detail • Customer Service • Communication Skills • Team Collaboration • Time Management • Continuous Learning

PROFESSIONAL EXPERIENCE

PT. Empore Hezer Tama - Document Controller (NOKIA Inhouse - Indosat Ooredoo Hutchison Project)

Surabaya | August 2025 - March 2026

Supported project documentation activities for Nokia telecommunication projects by ensuring documentation accuracy, revision control, submission compliance, and timely project handover.

Key Responsibilities

- Managed over 150 project documents throughout the project lifecycle.
- Verified project documentation before client submission.
- Prepared SIR, PR, ATP, progress reports, and project documentation.
- Coordinated with Project Managers, Engineers, QA/QC, and clients.
- Maintained document tracking and revision records.
- Supported project handover documentation.

PT. Grha Prima Agung - Permit & Site Supervisor (ZTE-EMR FTTH Project)

Blitar | December 2023 - February 2025

Supervised FTTH deployment projects while coordinating field operations, technical teams, project documentation, permit administration, and site acceptance activities to ensure successful project delivery.

Key Responsibilities

- Supervised FTTH installation, restoration, and maintenance activities.
- Coordinated more than 30 field technicians.
- Managed permit administration for more than 50 project sites.
- Participated in ATP, PAT, FAT, Site Acceptance, and commissioning activities.
- Monitored construction progress and project quality.
- Coordinated vendors, headquarters, and project stakeholders.
- Prepared daily progress reports and project documentation.

PT Tanguh Mandiri Bersama

(Authorized Service Partner for PT Aplikasi Lintasarta supporting PT Berau Coal and Industrial Operations)

Field Network Engineer

Balikpapan | November 2016 - August 2023

Provided onsite IT support, enterprise networking, telecommunication infrastructure, and field technical services across mining, oil & gas, industrial, and enterprise environments while ensuring reliable system performance and high service availability.

Key Responsibilities

- Provided onsite technical support for desktop computers, laptops, printers, Windows operating systems, communication devices, and network connectivity.
- Installed, configured, maintained, and troubleshoot enterprise network infrastructure including Cisco, MikroTik, switches, routers, wireless access points, and LAN/WAN environments.
- Performed installation, commissioning, preventive maintenance, corrective maintenance, and troubleshooting of Fiber Optic, VSAT, Radio Link, Point-to-Point (PTP) Microwave, CCTV, and communication systems.
- Installed and maintained communication site infrastructure including UPS systems, rectifiers, battery banks, solar power systems, server racks, structured cabling, grounding systems, and lightning protection systems.
- Performed Fiber Optic fusion splicing, OTDR testing, ODF termination, Joint Closure installation, Patch Panel installation, and fiber restoration.
- Monitored network performance using PRTG Network Monitor and resolved technical issues to maximize system availability.
- Prepared maintenance reports, technical documentation, asset records, commissioning reports, incident reports, and service documentation.
- Coordinated with clients, Service Desk, Network Operation Center (NOC), vendors, engineers, and project teams to ensure timely resolution of technical issues and successful project execution.

Key Achievements

- Maintained approximately 99.5% network availability across multiple remote operational sites.
- Successfully completed 200+ technical service requests while consistently achieving SLA targets.
- Successfully installed, aligned, commissioned, tested, and activated a 1.8-meter Point-to-Point (PTP) Microwave Radio Link at Telkom Bontang, delivering communication connectivity for PT Chevron under a PT Aplikasi Lintasarta project.
- Participated in the Indonesian BAKTI telecommunication infrastructure deployment program across remote operational areas.
- Led a 10-member field team in constructing and commissioning two 60-meter telecommunication towers, including grounding systems, lightning protection, Radio Link deployment, and end-to-end site activation.

Cahaya Multimedia - Video Editor & Production Staff

Samarinda | February 2014 – November 2016

- Managed digital production assets and operational documentation.
- Maintained structured digital archives.
- Supported multimedia production operations.

PT. Indonusa Telemedia (TelkomVision) - IT Technician

Samarinda | September 2011 – May 2014

- Installed and configured customer communication equipment and IT devices.
- Performed onsite troubleshooting for hardware, connectivity, and communication systems.
- Delivered preventive and corrective maintenance while ensuring service quality and customer satisfaction.
- Prepared service reports and supported technical documentation related to field operations.

CERTIFICATIONS

- Cisco CCNA 200-301 | Aguna Course | 2023
- MikroTik Certified Network Associate (MTCNA) | MikroTik.com | 2021
- MikroTik Administration Training | Aguna Course | 2021
- K3 TKBT Level 2 | PT Indo Training | 2020
- Work At Height (WAH) Certification | PT Indika Pratama Jaya | 2020
- Basic Sea Survival (BSS) | PT Bima Nusantara | 2020

EDUCATION

SMK Negeri 1 Doko – Blitar

Computer and Network Engineering | July 2008 – May 2011

ADDITIONAL INFORMATION

- Based in Balikpapan, East Kalimantan, Indonesia.
 - Willing to relocate throughout Indonesia.
 - Available for business travel, rotational assignments, and remote site operations.
 - Experienced working in mining, oil & gas, industrial, and enterprise environments.
 - Valid Indonesian Driving License (SIM A & SIM C).
 - English: Basic working proficiency (able to read and understand technical documentation).
-
