PROFESSIONAL SUMMARY

Telecommunication and Network Engineer with over 10 years of hands-on experience in telecommunication infrastructure, enterprise networking, and field engineering across mining, oil & gas, industrial, enterprise, and remote operational environments. Experienced in installation, commissioning, operation, maintenance, troubleshooting, and optimization of Fiber Optic, FTTH, VSAT, Radio Link, Point-to-Point Microwave, LAN/WAN, CCTV, and enterprise communication systems while ensuring high network availability and SLA compliance. Strong hands-on experience with Cisco and MikroTik networking, transmission systems, wireless communication, Fiber Optic infrastructure, and network monitoring, complemented by proven collaboration with NOC, clients, vendors, and multidisciplinary project teams. Quick to adapt to new technologies and telecommunication vendor environments.

CORE COMPETENCIES

Network Infrastructure

Enterprise Network • LAN/WAN • TCP/IP • Routing & Switching • VLAN • Cisco IOS Troubleshooting • MikroTik Configuration • Network Commissioning • Network Migration • Network Troubleshooting • Structured Cabling

Telecommunication Infrastructure

Fiber Optic • FTTH Deployment • VSAT (SCPC, TDMA, Ku-Band, C-Band, Starlink) • Radio Link • Point-to-Point (PTP) Microwave • Wireless Communication • Telecommunication Infrastructure

Fiber Optic Technologies

Fiber Installation • Fusion Splicing • OTDR Testing • Optical Power Meter (OPM) • Visual Fault Locator (VFL) • Joint Closure • ODF Installation • Patch Panel Installation • Fiber Restoration • Fiber Maintenance

Transmission Network

Microwave Radio Link • VSAT • Fiber Transmission • Point-to-Point Wireless • Last Mile Connectivity

Communication & Site Infrastructure

Telecommunication Tower • UPS Installation & Configuration • Rectifier Maintenance • Battery Bank Maintenance • Solar Power Systems • Grounding Systems • Lightning Protection Systems • Server Rack Installation • CCTV Systems

Network Monitoring & Tools

PRTG Network Monitor • WinBox • Cisco IOS • Terminal Access • Network Diagnostics • Performance Monitoring • Preventive & Corrective Maintenance

Project & Technical Documentation

Project Documentation • Technical Documentation • Site Acceptance Support • Commissioning Support • Incident Reporting • Maintenance Reports • Asset Documentation • As-Built Drawing • Transmittal • Punch List

Professional Skills

Technical Troubleshooting • Problem Solving • Analytical Thinking • Client Coordination • Vendor Coordination • Team Leadership • Field Operations • Time Management • Safety Awareness

PROFESSIONAL EXPERIENCE

PT. Empore Hezer Tama - Document Controller (NOKIA Inhouse - Indosat Ooredoo Hutchison Project)

Surabaya | August 2025 - March 2026

Supported project documentation activities for Nokia telecommunication projects by ensuring documentation accuracy, revision control, submission compliance, and timely project handover.

Key Responsibilities

- Managed over 150 project documents throughout the project lifecycle.
- Verified project documentation before client submission.
- Prepared SIR, PR, ATP, progress reports, and project documentation.
- Coordinated with Project Managers, Engineers, QA/QC, and clients.
- Maintained document tracking and revision records.
- Supported project handover documentation.

PT. Grha Prima Agung - Permit & Site Supervisor (ZTE-EMR FTTH Project)

Blitar | December 2023 - February 2025

Supervised FTTH deployment activities while coordinating field operations, permit administration, project documentation, and site acceptance activities.

Key Responsibilities

- Supervised FTTH installation, restoration, and maintenance activities.
- Coordinated more than 30 field technicians.
- Coordinated FTTH rollout activities with OSP engineers, subcontractors, and project stakeholders while ensuring project quality and schedule compliance.
- Managed permit administration for more than 50 project sites.
- Participated in ATP, PAT, FAT, Site Acceptance, and commissioning activities.
- Monitored construction progress and project quality.
- Reviewed As Plan Design (APD) and prepared redline drawings for FTTH implementation.
- Coordinated with OSP engineers, MyRepublic field supervisors, subcontractors, headquarters, and project stakeholders.
- Prepared daily progress reports and project documentation.

PT Tangguh Mandiri Bersama

(Authorized Service Partner for PT Aplikasi Lintasarta supporting PT Berau Coal and Industrial Operations)

Field Network Engineer

Balikpapan | November 2016 - August 2023

Provided telecommunication infrastructure, enterprise network, and field engineering services supporting mining, industrial, plantation, and oil & gas operations across East Kalimantan.

Key Responsibilities

- Installed, configured, commissioned, and maintained enterprise network and telecommunication infrastructure, including Fiber Optic, VSAT, Radio Link, CCTV, wireless communication, and LAN/WAN systems.
- Performed Fiber Optic installation, fusion splicing, OTDR testing, Joint Closure installation, ODF termination, Patch Panel installation, and fiber restoration.
- Installed, configured, aligned, tested, and commissioned SCPC, TDMA, Ku-Band, C-Band, Starlink VSAT, Point-to-Point Microwave Radio Link, and wireless communication systems using Ubiquiti, Cambium, Mimosa, and Ceragon equipment.
- Performed preventive maintenance, corrective maintenance, fault isolation, technical troubleshooting, and service restoration for enterprise network and telecommunication infrastructure while ensuring SLA compliance.
- Installed and maintained communication site infrastructure, including UPS systems, rectifiers, battery banks, solar power systems, grounding systems, server racks, structured cabling, and lightning protection systems.
- Monitored network performance using PRTG Network Monitor, performed technical troubleshooting, and prepared maintenance reports, technical documentation, incident reports, and asset documentation.
- Coordinated with clients, Service Desk, Network Operation Center (NOC), vendors, project engineers, and internal teams during project implementation, commissioning, and operational support.
- Supported telecommunication infrastructure projects for PT Berau Coal, PT Pertamina Hulu Kalimantan Timur (PHKT), PT Wilmar Nabati Indonesia, PT Dharma Henwa, PT Berau Karetindo Lestari (BKL), Quest Hotel Balikpapan, PT Masa Baru Guna Persada, and PT Hino Motors Sales Indonesia.

Key Achievements

- Maintained approximately 99.5% network availability across multiple remote operational sites.
- Successfully completed 200+ technical service requests while consistently achieving SLA targets.
- Successfully deployed Radio Link infrastructure supporting communication between remote operational sites.
- Successfully installed, aligned, commissioned, tested, and activated a 1.8-meter Point-to-Point Microwave Radio Link connecting Telkom Bontang and Chevron facilities under a PT Aplikasi Lintasarta project.
- Participated in deployment, commissioning, and operational support of telecommunication infrastructure for the Indonesian BAKTI Program across remote operational areas.
- Led a 10-member field team in constructing and commissioning two 60-meter telecommunication towers, including grounding systems, lightning protection installation, Radio Link deployment, and end-to-end site activation.
- Supported installation, maintenance, and troubleshooting activities across multiple enterprise, mining, and oil & gas sites throughout East Kalimantan.

Cahaya Multimedia - Video Editor & Production Staff

Samarinda | February 2014 – November 2016

- Managed digital production assets and operational documentation.
- Supported multimedia production operations.

PT. Indonusa Telemedia (TelkomVision) - IT Technician

Samarinda | September 2011 – May 2014

- Installed customer communication equipment.
- Performed onsite troubleshooting and preventive maintenance.

CERTIFICATIONS

- Cisco CCNA 200-301 | Aguna Course | 2023
- MikroTik Certified Network Associate (MTCNA) | MikroTik.com | 2021
- MikroTik Administration Training | Aguna Course | 2021
- K3 TKBT Level 2 | PT Indo Training | 2020
- Work At Height (WAH) Certification | PT Indika Pratama Jaya | 2020
- Basic Sea Survival (BSS) | PT Bima Nusantara | 2020

EDUCATION

SMK Negeri 1 Doko – Blitar

Computer and Network Engineering | July 2008 – May 2011

ADDITIONAL INFORMATION

- Based in Balikpapan, East Kalimantan, Indonesia; willing to relocate throughout Indonesia.
- Available for business travel, rotational assignments, and remote site operations.
- Experienced working in mining, oil & gas, industrial, enterprise, and remote operational environments.
- Cisco CCNA and MikroTik MTCNA certified with strong hands-on experience in enterprise networking and telecommunication infrastructure.
- Valid Indonesian Driving License (SIM A & SIM C).
- English: Basic working proficiency (able to read and understand technical documentation).
