PROFESSIONAL SUMMARY

Telecommunication and Network Engineer with over 10 years of hands-on experience in designing, deploying, integrating, commissioning, maintaining, and troubleshooting wired and wireless communication networks across mining, oil & gas, industrial, enterprise, and remote operational environments.

Experienced in network deployment, system integration, enterprise networking, Fiber Optic, FTTH, VSAT, Radio Link, Point-to-Point (PTP) Microwave, LAN/WAN, Cisco, MikroTik, and communication infrastructure while ensuring high network availability and SLA compliance. Proven ability to conduct site surveys, deploy communication infrastructure, provide onsite and remote technical support, troubleshoot complex network issues, coordinate with multidisciplinary teams, and deliver reliable, safe, and high-quality network solutions supported by comprehensive technical documentation.

CORE COMPETENCIES

Network Deployment & Infrastructure

Network Deployment • Enterprise Network • LAN/WAN • TCP/IP • Routing & Switching • VLAN • Network Commissioning • System Integration • Structured Cabling • Site Survey

Wireless & Telecommunication Networks

Fiber Optic • FTTH Deployment • VSAT (SCPC, TDMA, Ku-Band, C-Band, Starlink) • Radio Link • Point-to-Point (PTP) Microwave • Wireless Communication • Telecommunication Infrastructure

Network Technologies

Cisco IOS • MikroTik • Ubiquiti • Cambium • Mimosa • Ceragon • Wireless Network Deployment • Network Troubleshooting • PRTG Network Monitor

Fiber Optic Technologies

Fusion Splicing • OTDR Testing • Optical Power Meter (OPM) • Visual Fault Locator (VFL) • Joint Closure • ODF Installation • Patch Panel Installation • Fiber Restoration

Site Infrastructure

UPS Systems • Rectifier Systems • Battery Banks • Solar Power Systems • Grounding Systems • Lightning Protection • Server Rack Installation • CCTV Systems

Project & Technical Documentation

Technical Documentation • Project Documentation • Site Acceptance Support • Commissioning Support • Incident Reporting • Maintenance Reports • Asset Documentation • As-Built Drawing • Transmittal

Professional Skills

Technical Troubleshooting • Problem Solving • Analytical Thinking • Client Coordination • Vendor Coordination • Team Leadership • Communication Skills • Time Management • Safety Awareness

PROFESSIONAL EXPERIENCE

PT. Empore Hezer Tama - Document Controller (NOKIA Inhouse - Indosat Ooredoo Hutchison Project)

Surabaya | August 2025 - March 2026

Supported project documentation activities for Nokia telecommunication projects by ensuring documentation accuracy, revision control, submission compliance, and timely project handover.

Key Responsibilities

- Managed over 150 project documents throughout the project lifecycle.
- Verified project documentation before client submission.
- Prepared SIR, PR, ATP, progress reports, and project documentation.
- Coordinated with Project Managers, Engineers, QA/QC, and clients.
- Maintained document tracking and revision records.
- Supported project handover documentation.

PT. Grha Prima Agung - Permit & Site Supervisor (ZTE-EMR FTTH Project)

Blitar | December 2023 - February 2025

Supervised FTTH deployment activities while coordinating field operations, permit administration, project documentation, and site acceptance activities.

Key Responsibilities

- Supervised FTTH installation, restoration, and maintenance activities.
- Coordinated more than 30 field technicians.
- Managed permit administration for more than 50 project sites.
- Participated in ATP, PAT, FAT, Site Acceptance, and commissioning activities.
- Monitored construction progress and project quality.

- Reviewed As Plan Design (APD) and prepared redline drawings for FTTH implementation.
- Coordinated with OSP engineers, MyRepublic field supervisors, subcontractors, headquarters, and project stakeholders.
- Prepared daily progress reports and project documentation.

PT Tangguh Mandiri Bersama

(Authorized Service Partner for PT Aplikasi Lintasarta supporting PT Berau Coal and Industrial Operations)

Field Network Engineer

Balikpapan | November 2016 - August 2023

Provided telecommunication infrastructure, enterprise network, and field engineering services supporting mining, industrial, plantation, and oil & gas operations across East Kalimantan.

Key Responsibilities

- Designed, deployed, installed, commissioned, maintained, and troubleshot enterprise wired and wireless communication networks including LAN/WAN, Fiber Optic, VSAT, Point-to-Point (PTP) Microwave, Radio Link, CCTV, and wireless communication systems.
- Conducted site surveys, network assessments, installation planning, and onsite deployment to ensure successful implementation of communication infrastructure.
- Installed and configured Cisco, MikroTik, Ubiquiti, Cambium, Mimosa, and Ceragon network devices.
- Performed Fiber Optic installation, fusion splicing, OTDR testing, Joint Closure installation, ODF termination, Patch Panel installation, and fiber restoration.
- Installed and maintained communication site infrastructure including UPS systems, rectifiers, battery banks, solar power systems, server racks, grounding systems, structured cabling, and lightning protection systems.
- Performed preventive and corrective maintenance while ensuring maximum network availability and SLA compliance.
- Monitored network performance using PRTG Network Monitor and performed network diagnostics and troubleshooting.
- Prepared maintenance reports, technical documentation, commissioning reports, incident reports, and asset documentation.
- Coordinated with clients, Network Operation Center (NOC), Service Desk, vendors, project engineers, and multidisciplinary teams during deployment and operational support.

Key Achievements

- Maintained approximately 99.5% network availability across multiple remote mining operational sites.
- Successfully completed more than 200 technical service requests while consistently meeting SLA targets.
- Successfully installed, aligned, commissioned, tested, and activated a 1.8-meter Point-to-Point (PTP) Microwave Radio Link at Telkom Bontang, providing communication connectivity for PT Chevron under a PT Aplikasi Lintasarta project.
- Successfully deployed and commissioned wired and wireless communication infrastructure supporting multiple mining operations across East Kalimantan.
- Participated in the Indonesian BAKTI telecommunication infrastructure deployment program across remote operational areas.
- Led a 10-member field team in constructing and commissioning two 60-meter telecommunication towers, including grounding systems, lightning protection, Radio Link deployment, and end-to-end site activation.

Cahaya Multimedia - Video Editor & Production Staff

Samarinda | February 2014 – November 2016

- Managed digital production assets and operational documentation.
- Supported multimedia production operations.

PT. Indonusa Telemedia (TelkomVision) - IT Technician

Samarinda | September 2011 – May 2014

- Installed customer communication equipment.
- Performed onsite troubleshooting and preventive maintenance.

CERTIFICATIONS

- Cisco CCNA 200-301 | Aguna Course | 2023
- MikroTik Certified Network Associate (MTCNA) | MikroTik.com | 2021
- MikroTik Administration Training | Aguna Course | 2021
- K3 TKBT Level 2 | PT Indo Training | 2020
- Work At Height (WAH) Certification | PT Indika Pratama Jaya | 2020
- Basic Sea Survival (BSS) | PT Bima Nusantara | 2020

EDUCATION

SMK Negeri 1 Doko – Blitar

Computer and Network Engineering | July 2008 – May 2011

ADDITIONAL INFORMATION

- Based in Balikpapan, East Kalimantan, Indonesia.
- Available for business travel, customer site assignments, rotational schedules, and remote field operations.
- More than 10 years of experience supporting mining, oil & gas, industrial, and enterprise environments.
- Valid Indonesian Driving License (SIM A & SIM C).
- English: Basic working proficiency with the ability to read and understand technical documentation.
