PROFESSIONAL SUMMARY

Project Administrator and Project Coordinator with over 10 years of experience supporting telecommunication, infrastructure, mining, oil & gas, industrial, and enterprise projects through project administration, documentation control, site coordination, and cross-functional communication.

Experienced in project administration, engineering documentation, asset documentation, project reporting, permit administration, workflow coordination, and project progress tracking while ensuring compliance with company procedures, client requirements, and operational standards. Proficient in Microsoft Excel for reporting, data management, reconciliation, and project tracking.

Strong ability to collaborate with Project Managers, Engineers, QA/QC teams, vendors, subcontractors, and clients to support project execution from planning through completion. Proven experience maintaining project records, monitoring project progress, coordinating field activities, and supporting successful project delivery in dynamic operational environments.

Recognized for excellent organizational skills, attention to detail, effective communication, and the ability to manage multiple project activities simultaneously while maintaining high documentation quality and operational efficiency.

CORE COMPETENCIES

Project Administration

Project Administration • Project Coordination • Project Support • Site Administration • Permit Administration • Engineering Administration

Project Documentation

Document Control • Revision Control • Document Tracking • Progress Reporting • Project Handover • Technical Documentation • As-Built Drawing • ATP • SIR • PR • Transmittal • Punch List

Project Coordination

Client Coordination • Vendor Coordination • Subcontractor Coordination • Cross-functional Communication • Site Coordination • QA/QC Coordination

Project Monitoring & Analysis

Project Progress Monitoring • Activity Tracking • Data Analysis • Reporting Dashboard • Project Tracking • Schedule Coordination • Site Acceptance Support

Office & Digital Productivity

Microsoft Excel (XLOOKUP, INDEX-MATCH, Basic VBA) • Microsoft Word • Microsoft PowerPoint • Microsoft 365 • OneDrive • SharePoint • Google Workspace • Data Analysis • Data Reconciliation • Dashboard Reporting

Technical Knowledge

Telecommunication Infrastructure • Fiber Optic • VSAT • Enterprise Network • CCTV • FTTH • Network Infrastructure • Field Operations

PROFESSIONAL EXPERIENCE

PT. Empore Hezer Tama - Document Controller (NOKIA Inhouse - Indosat Ooredoo Hutchison Project)

Surabaya | August 2025 - March 2026

Supported telecommunication projects by coordinating project documentation, engineering records, document control activities, and project handover while ensuring compliance with project requirements and documentation standards.

Key Responsibilities

- Managed more than 150 engineering and project documents throughout the entire project lifecycle.
- Verified technical documentation for completeness, accuracy, and compliance before client submission.
- Prepared and maintained SIR, PR, ATP documentation, project progress reports, and supporting engineering documentation.
- Controlled document revisions, document numbering, and distribution in accordance with project procedures.
- Maintained document registers, document tracking logs, project filing systems, and reporting records to support project monitoring and documentation accuracy.
- Coordinated documentation with Project Managers, Site Engineers, QA/QC teams, clients, and vendors.
- Supported project handover by ensuring all required documentation was complete, accurate, and properly archived.

PT. Grha Prima Agung - Permit & Site Supervisor (ZTE-EMR FTTH Project)

Blitar | December 2023 - February 2025

Coordinated FTTH deployment projects by managing permit administration, field operations, project documentation, technical teams, and site acceptance activities to support timely and successful project delivery.

Key Responsibilities

- Coordinated project execution involving more than 30 field technicians.
- Managed permit administration for more than 50 project locations.
- Prepared daily progress reports, project documentation, and implementation updates.
- Coordinated field activities with headquarters, subcontractors, vendors, and project stakeholders.

- Participated in ATP, PAT, FAT, Site Acceptance, and commissioning activities.
- Monitored project progress, quality, and compliance with project schedules.
- Assisted project progress tracking and coordinated implementation updates to support timely project completion.

PT Tangguh Mandiri Bersama

(Authorized Service Partner for PT Aplikanusa Lintasarta supporting PT Berau Coal and Industrial Operations)

Field Network Engineer

Balikpapan | November 2016 - August 2023

Supported telecommunication and network infrastructure projects by coordinating field implementation, project documentation, technical reporting, and cross-functional communication across mining, oil & gas, industrial, and enterprise environments.

Key Responsibilities

- Prepared maintenance reports, technical documentation, asset records, work completion reports, and incident reports to support project administration, operational planning, and compliance.
- Coordinated field implementation activities with clients, Service Desk, Network Operation Center (NOC), project engineers, vendors, and subcontractors to ensure timely execution of maintenance and project activities.
- Monitored work progress, tracked project activities, and communicated implementation updates to internal teams and stakeholders to support project delivery.
- Maintained accurate documentation of equipment installation, maintenance history, and project records to support asset tracking and operational reporting.
- Supported project implementation, commissioning, site acceptance, preventive maintenance, and corrective maintenance activities in accordance with company procedures and client requirements.
- Installed, configured, maintained, and troubleshot Fiber Optic, VSAT, Radio Link, CCTV, enterprise network, and communication infrastructure supporting business-critical operations.
- Installed and maintained communication power infrastructure including UPS systems, rectifiers, battery banks, solar power backup systems, server racks, structured cabling, grounding systems, and lightning protection systems.
- Performed Fiber Optic fusion splicing, OTDR testing, Joint Closure installation, ODF termination, and Patch Panel installation.
- Monitored operational performance using PRTG Network Monitor, supported issue tracking, and documented technical findings to improve system availability and operational reporting.

Key Achievements

- Coordinated and supported the successful completion of more than 200 technical service requests while consistently meeting SLA targets.
- Contributed to maintaining approximately 99.5% network availability across multiple remote operational sites.
- Participated in telecommunication infrastructure deployment supporting the Indonesian BAKTI program across remote operational areas.
- Led a 10-member field team in the construction and commissioning of two 60-meter telecommunication towers, including grounding systems, lightning protection, Radio Link deployment, and end-to-end site activation.

Cahaya Multimedia - Video Editor & Production Staff

Samarinda | February 2014 – November 2016

- Managed digital production assets and operational documentation.
- Maintained structured digital archives.

PT. Indonusa Telemedia (TelkomVision) - IT Technician

Samarinda | September 2011 – May 2014

- Installed and configured customer communication equipment and IT devices.
- Performed onsite troubleshooting for hardware, connectivity, and communication systems.
- Delivered preventive and corrective maintenance while ensuring service quality and customer satisfaction.
- Prepared service reports and supported technical documentation related to field operations.

CERTIFICATIONS

- Cisco CCNA 200-301 | Aguna Course | 2023
- MikroTik Certified Network Associate (MTCNA) | MikroTik.com | 2021
- MikroTik Administration Training | Aguna Course | 2021
- K3 TKBT Level 2 | PT Indo Training | 2020
- Work At Height (WAH) Certification | PT Indika Pratama Jaya | 2020
- Basic Sea Survival (BSS) | PT Bima Nusantara | 2020

EDUCATION

SMK Negeri 1 Doko – Blitar

Computer and Network Engineering | July 2008 – May 2011

ADDITIONAL INFORMATION

- Based in Balikpapan, East Kalimantan, Indonesia.
 - Willing to relocate throughout Indonesia.
 - Available for business travel, rotational assignments, and remote site operations.
 - Experienced working in mining, oil & gas, industrial, and enterprise environments.
 - Valid Indonesian Driving License (SIM A & SIM C).
 - English: Basic working proficiency (able to read and understand technical documentation).
-
